

MOHAMMED AKMAL SHARAF

SOFTWARE ENGINEER

OBJECTIVE

A highly skilled and motivated Front-End Developer with a robust foundation in software engineering, complemented by a substantial background in web and mobile application development. I am passionate about creating user-friendly and visually appealing interfaces while ensuring efficient performance and cross-browser compatibility. Looking to join Venus IT (Matara) to contribute my expertise in IT-Software / Internet and further enhance my development skills.

EXPERIENCE

AFISOL - Colombo 05
march 2022-Present

- Developed and maintained user interfaces for web and mobile applications, adhering to industry best practices and modern design standards.
- Collaborated with cross-functional teams to integrate front-end, ensuring seamless functionality.
- Utilized JavaScript to implement interactive features and enhance user experience.
- Worked with frameworks such as React, ensuring efficient and scalable code.
- Employed HTML, CSS, PHP and JavaScript for responsive design, focusing on mobile-first development.
- Successfully implemented RESTful services and APIs, optimizing data retrieval and communication with the server.
- Ensured cross-browser and cross-platform compatibility through rigorous testing and debugging.
- Stayed updated with the latest web design trends, standards, and best practices to enhance the quality of deliverables.
- Managed website projects from inception to completion, meeting project deadlines and
